Project Name	A CRM APPLICATION OF CHAI SHOP & CO
Maximum Marks	5 Marks

Problem-Solution Fit Canvas:

Use the framework below to ensure your proposed solution accurately addresses the root causes, behaviors, and limitations of your target audience. Fill out the canvas in the respective boxes just like the original visual template.

1. CUSTOMER SEGMENT(S) [CS]Target Customers: • Retail Sales Staff • Operations Managers • Store Director / General Manager • System Administrators • Business Analysts • Retail & B2B Customers / Consumers	6.CUSTOMER LIMITATIONS • EG. BUDGET, DEVICES Limited time during peak business hours. • Manual data-entry workload. • Risk of mathematical and billing errors. • Dependence on paper records and spreadsheets. • Fragmented customer information. • Need for simple interfaces without advanced technical training. • Need for secure access to customer and business information.	• 5. AVAILABLE SOLUTIONS PROS & CONS • Paper Records – Simple, but manual and error-prone. • Spreadsheets – Easy to edit, but data can become fragmented. • Web-based CRM – Centralized management, but may not be customized. • Email Software – Automates emails, but requires separate systems. • Salesforce CRM – Centralized, automated, with reports and dashboards.
• 2. PROBLEMS / PAINS + ITS FREQUENCY [PR] • Manual calculation of cart totals and order quantities. • Frequent mathematical and billing errors. • Slow checkout process, especially during peak hours. • Customer and sales information is scattered across different files. • Difficulty accessing real-time sales and revenue information. • Repeated manual data entry.	9. PROBLEM ROOT / CAUSE [RC] • Dependence on manual record keeping. • Lack of a centralized CRM system. • Customer and sales data stored in separate files. • Manual billing and order calculations. • Lack of automated workflows. • Lack of real-time reports and dashboards.	7. BEHAVIOR + ITS INTENSITY 1.Manually calculate order quantities and bills. 2.Maintain customer details using spreadsheets or physical records. 3.Repeatedly enter customer information and manually prepare reports. Intensity: High / Frequent.
• 3. TRIGGERS TO ACT [TR] Increase in customer orders. • Peak-hour checkout pressure. • Repeated billing and calculation errors. • Difficulty managing customer records. • Management needing real-time sales and revenue information. • Need to improve customer engagement and loyalty. • Need for automated birthday offers and promotional emails.	10. YOUR SOLUTION [SL] A Salesforce-based CRM Application for TheChaiShop&Co The system will: • Centralize customer, employer and enterprise information. • Provide secure user login. • Create custom objects and fields. • Separate Online and Walk-In customers using Record Types. • Automatically calculate order quantities and total bills. • Use Validation Rules to reduce incorrect data. • Automate birthday and promotional emails. • Use Salesforce Flows for automation. • Provide Reports and Dashboards.	8. CHANNELS OF BEHAVIOR [CH] ONLINE • Salesforce CRM • Salesforce Lightning Interface • Reports and Dashboards • Automated Email Notifications
4. EMOTIONS BEFORE / AFTER Before: • Frustration • Anxiety about billing mistakes After: • Faster and easier checkout • Reduced billing errors		OFFLINE • Physical ledgers • Paper records • Excel spreadsheets • Retail store / counter
